1976 Charter Way
Stockton, CA 95205

Fax (209) 948-7522
Tel (209) 948-7543

From: Robert Carter
Carter Construction

Subject: Requesting Grading Geometry Files for Contract No. 10-049944

Dear Mr. Garcia,

Please forward Carter Construction LandXML, dwg or dgn files that contain the following vector information for the Highway 49 job in Amador County:

1. Original ground cross sections for main and intersecting lines
2. Finished grade cross sections (regular stations plus transition stations)
3. Coordinate geometry (cogo) for horizontal alignments
4. Vertical cogo for profile grade lines
5. Proposed design linework (2D geometry chains or 3D breaklines)

Carter Construction relies upon modern, computer-aided estimating and production methods to provide competitive bids and timely grading performance. In addition to paper plans, receiving the grading geometry in computer-readable form helps us to do our best work for Caltrans.

Terms of release & hold-harmless agreement: We understand that we may be receiving electronic data containing intermediate survey and design information, not necessarily intended for construction. We agree to hold Caltrans and the State of California harmless from any defects in this data. We agree that our sole use of this data shall be for the practical estimation of quantities, positions and grades in accordance with our duty as a licensed contractor. We agree that it shall be our responsibility to reconcile this electronic data with the paper plans, and that only the paper plans shall be regarded as legal documents for this job.

Mr. Garcia, thank you for your able assistance in this matter.

Best regards,

A handwritten signature in black ink that reads "Bob Carter". The signature is written in a cursive, flowing style.

Robert J. Carter
